Item from the Daily Log - 21 July 52 (Monday)

Discussed with [REDACTED] correspondence with GSA in connection with air conditioning the skating rink. I said I felt we were obliged to do the necessary procurement as unvouchered funds would be used under our agreement with the Comptroller General, and therefore hoped there would be no need for the letter. [REDACTED] notified me later that in view of the unvouchered situation no letter would be required.
